Annual report of the Geobotanical Institute ETH (1999)

PETER J. EDWARDS

*Geobotanisches Institut ETH, Zürichbergstrasse 38, 8044 Zürich, Switzerland;
peter.edwards@geobot.unmw.ethz.ch*

1 Introduction

For the Geobotanical Institute 1999 was a very busy year with a full programme of teaching, research and other activities. It was also the year which saw the retirement of two senior colleagues, Prof. Frank Klötzli and Prof. Krystyna M. Urbanska. An appreciation of their work is given later in this report.

In February, the Institute was responsible for organising the annual joint meeting of the Swiss Botanical and Zoological Societies (*Zoologia et Botanica 99*), which had the theme “Genes, populations and politicians: issues in conservation biology”. The meeting was attended by over 200 participants. In August, many members of the Institute attended the *International Botanical Congress* in St. Louis, USA, and presented paper and posters about their work. In December, members of the Institute were involved in the *2nd Symposium of the Competence Centre for Plant Sciences Zurich*. The theme of the meeting was “Plant stress and gene-environment interactions”. This meeting is part of a process of developing a major new, interdisciplinary research programme at the ETH and University of Zürich which bridges the traditional divide between ecology and evolution on the one hand, and cell and molecular biology on the other.

2 Staff of the Institute

2.1 FOUNDATION BOARD

President

Prof. Dr. Hannes FLÜHLER

Vicepresident

Martin RÜBEL-FUCHS

Secretary

Patrick OCHSNER

Other members of the board

Daniel HUBER-DUMUID
Dr. Alexander RÜBEL
Prof. Dr. Franz SCHMITHÜSEN
Prof. Dr. Peter STAMP

2.2 STAFF

Director

Prof. Dr. Peter J. EDWARDS

*Scientific members of staff (*lecturer)*

*Dr. Cyrus ABIVARDI
*Dr. Matthias BALTISBERGER
Kirsten EDELKRAUT
Dr. Gerhard EICHENBERGER
Alex GABRIEL
Andreina GERSTER
*Prof. Dr. Andreas GIGON
*Dr. Sabine GÜSEWELL
*Prof. Dr. Egon HORAK
Gisela HORAT
Dr. Christiane JACQUAT
Prof. Dr. Frank KLÖTZLI
*Dr. Johannes KOLLMANN
Prof. Dr. Elias LANDOLT
*PD Dr. Adrian LEUCHTMANN
Monika PFUNDER
*Dr. Dieter RAMSEIER
*Prof. Dr. Barbara A. ROY

ANNUAL REPORT (1999)

*Dr. Peter RYSER
Bettina SCHERZ VRACKO
Stéphanie SCHÜRCH
*Dr. Alexander WIDMER
*Prof. Dr. Krystyna M. URBANSKA

External lecturers

Dr. Hans-Ulrich FREY
Dr. René GILGEN
Dr. Iris GÖDICKE MEIER
Dr. Frank GRAF
Maja HALDEMANN
Dr. Bertil KRÜSI
Dr. Urs KUHN
Dr. Fredy LEUTERT
Dr. Bernhard MERZ
Dr. Andreas PAPRITZ
Dr. Martin SCHÜTZ
PD Dr. Otto WILDI

*Doctoral students (*lecturer)*

Franziska ANDRES
Bernhard BEYER
*Markus BICHSEL
Astrid BJÖRNSEN-GURUNG
Urs BLÖSCH
Ursula BOLLENS
Dominik BREM
Manuela DI GIULIO
Yvonne EDWARDS-WIDMER
Regine FANKHAUSER
Daniel FREY
Jörg IPSEN
Peter JEWELL
Bettina KAHLERT
Sophie KARRENBERG
Barbara KÖHLER
Stephan KUSKE
Gerrit MEIJER

Site and building manager

René GRAF

Scientific visitors

Prof. Dr. Ken SATO, Hokkai-Gakuen University, Faculty of General Education, Sapporo, Japan (1.1.–31.7.99)
Dr. Kristjan ZOBEL, Universität Tartu, Estland (16.–30.1.99)
Annemarie HOENDERBOOM, Hogeschool Larenstein, Niederlande (23.7.–6.8.99)
Pille URBAS, Universität Tartu, Estland (2.8.–12.9.99)
Prof. Dr. Z. BANIHASHEMI, Department of Plant Protection, College of Agriculture, Shiraz Univ., Shiraz, Iran (17.11.–25.11.99)
Prof. Dr. Hans LAMBERS, University of Western Australia, Nedlands, Australia and Utrecht University, Niederlande (9.12.99)

2.3 RETIREMENTS

In 1999, two colleagues left the Institute, who have been very active for a long time and have had an important influence on the Institute. With gratitude the members of the Institute appreciate the contribution both have made.

Prof. Dr. Frank Klötzli

Frank Klötzli, born 7 February 1934, has been a member of the Institute for 40 years. In 1959 he joined the Institute as a PhD student of the late Prof. Dr. H. Ellenberg. His PhD thesis was concerned with the herbivory of roe deer in forest and grassland communities in the Swiss midlands. In 1962 he became assistant of the Institute, in 1969 his habilitation was submitted, and a long and successful period of teaching followed. His interests have been diverse, including community ecology, plant ecology and nature conservation. He has been advisor of numerous diploma and PhD projects in Switzerland as well as in the tropics. The focus of his teaching was on vegetation science and its applications; most popular was his lecture on the “Vegetation of the Earth”. Frank Klötzli is author of numer-

ous publications and several books. He was also very active in various commissions and societies both at the national and the international level. We expect that the status of a “retired” member of the Institute will not really mean a reduced work load for Frank Klötzli.

Prof. Dr. Krystyna Urbanska

Krystyna Urbanska, born 6 June 1935, came from the University of Krakau and became an assistant of the Institute in 1969. She submitted her habilitation in 1971, and has been since a teacher in biosystematics, ecological genetics, population biology and restoration ecology. During 30 years she has supervised numerous diploma and PhD projects, many of them in the alpine zone near Davos, where she initiated a long-term project on restoration of machine-graded ski runs. Krystyna Urbanska developed a method of aided restoration which is designed for the harsh environment of the alpine zone, and soon became internationally known as an expert in this area. Well known are also her studies on the origin of two new *Cardamine* species in central Switzerland. Krystyna Urbanska will continue her research for the years to come.

3 Research

3.1 OVERVIEW

The research of the Geobotanical Institute is focused on four main directions: plant ecology, plant evolution and systematics, mycology and archaeobotany; the main interests of the research groups are described in details below.

3.2 RESEARCH FIELDS

SECTION PLANT ECOLOGY

Group 1: Community and Ecosystem Ecology
(Prof. Dr. P.J. Edwards, Dr. C. Abivardi, Dr. S. Güsewell, Dr. J. Kollmann, Dr. P. Ryser)

- Ecosystem processes: nutrient budgets, herbivory and other biotic interactions
- Ecosystems on a landscape level and GIS
- Agroecology
- Physiological and ecological characters of plants
- Ecology of seed dispersal

Group 2: Plant Ecology and Conservation Biology

(Prof. Dr. A. Gigon, Dr. D. Ramseier)

- Ecological stability: concepts and case studies
- Competition, positive biotic interactions, and coexistence of plants
- Biodiversity and nature conservation

Group 3: Restoration Ecology

(Prof. Dr. K.M. Urbanska)

- Population processes and their relevance for restoration
- Primary and secondary safe sites above the timberline
- Seed dispersal and seedbanks in disturbed and undisturbed grassland above the timberline

Group 4: Vegetation Science

(Prof. Dr. F. Klötzli)

- Resilience and dynamics of nutrient-poor wetlands
- Patterns and processes of forest communities (including tropical forests)
- Dynamics of tropical savannas
- Succession on landslides

SECTION EVOLUTION AND SYSTEMATICS

Group 1: Evolutionary Ecology

(Prof. Dr. B.A. Roy)

- Which role play pathogens in structuring plant populations and communities?
- Is there a trade-off between resistance to pathogens and tolerance to physical stress?

- Investigation of hypotheses on coevolution between pathogens and hosts: the roles of host species, their distribution and ecology.

Group 2: Plant Systematics and Evolution

(Dr. M. Baltisberger, Prof. Dr. E. Landolt, Dr. A. Widmer)

- Speciation and population genetics in *Draba*, *Ranunculus*, *Ophrys* and *Viscum*
- Microevolution and genetic adaptation in a changing environment
- Plant–pollinator interactions
- Monographic revision of the Lemnaceae
- Project *Flora der Stadt Zürich*

Group 3: Evolutionary Mycology

(Dr. A. Leuchtmann)

- Biodiversity and population biology of *Epichloë* and *Acremonium* grass endophytes
- Sexual systems of *Epichloë* species in the context of the evolution of symbioses between grasses and endophytes

Group 4: Systematic Mycology

(Prof. Dr. E. Horak)

- Plants and fungi (ectomycorrhiza, saprophytes) in various habitats of the northern and southern hemisphere
- Monographic revision of several genera of the Agaricales (*Crepidotus*, *Galerina*) and Boletales (*Boletellus*)

SECTION ARCHAEOBOTANY

(Dr. C. Jacquat)

- Investigation of fossil plants in archaeological excavations in Switzerland and Jordan (history of agricultural grasslands and adventitious plants)

3.3 NEW RESEARCH PROJECTS 1999

(Title. Source of funding. Research assistant(s); project leader)

- Indigenous knowledge on storage pest

management in Nepal – Implications for integrated pest management. CIMBRIA Foundation Zürich and DEZA Bern. A. BJÖRNSEN-GURUNG; P.J. EDWARDS & C. ABIVARDI.

- Schafberg Amden. BUWAL. R. FANKHAUSER; P.J. EDWARDS.
- Reproduction, demography and genetic structure in small and isolated populations of a vertebrate-dispersed shrub: a comparison between two European regions. ETHZ. K. PFLUGSHAUP; J. KOLLMANN & B.A. ROY.
- Arctic-alpine Mycobiota (Agaricales): Rocky Mountain Tundra, USA. US NSF Project 9971210 (1999–2001). E. HORAK & C. CRIPPS.

4 List of publications 1999

4.1 PERSPECTIVES IN PLANT ECOLOGY, EVOLUTION AND SYSTEMATICS, 2 (1999)

The second volume of the new journal *Perspectives in Plant Ecology, Evolution and Systematics* appeared in two issues in June and December 1999. This volume contains 12 monographic contributions and reviews. The background and the aims of the journal were described in the first issue in 1998; a more general introduction is given under <http://www-urbanfischer.de/journals/ppees/>. Dr. Karl Fleischmann serves as Managing Editor, and Prof. Peter J. Edwards is Editor-in-Chief of the journal. The Editorial Board consists of six scientists from the ETH Zurich and the Universities of Zurich and Bern, the editors are supported by an international Advisory Board of about 20 ecologists and systematists.

Issue 1/99

Grace, J.B. The factors controlling species density in herbaceous plant communities: an assessment. 1–28.

- Mulder, C.P.H. Vertebrate herbivores and plants in the Arctic and subarctic: effects on individuals, populations, communities and ecosystems. 29–55.
- Braendle, R. & Crawford, R.M.M. Plants as amphibians. 56–78.
- Cook, C.D.K. The number and kinds of embryo-bearing plants which have become aquatic: a survey. 79–102.
- Leuschner, C. & Rode, M.W. The role of plant resources in forest succession: changes in radiation, water and nutrient fluxes, and plant productivity over a 300-yr-long chronosequence on NW-Germany. 103–147.

Issue 2/99

- Sprent, J.I. Nitrogen fixation and growth of non-crop legume species in diverse environments. 149–162.
- Van Bel, A.J.E. Evolution, polymorphology and multifunctionality of the phloem system. 163–184.
- Goulson, D. Foraging strategies of insects for gathering nectar and pollen, and implications for plant ecology and evolution. 185–209.
- Looijen, R.C. & van Andel, J. Ecological communities: conceptual problems and definitions. 210–222.
- Mountford, E.P., Peterken, G.F., Edwards, P.J. & Manners, J.G. Long-term change in growth, mortality and regeneration of trees in Denny Wood, an old-growth wood-pasture in the New Forest (UK). 223–272.

4.2 BULLETIN OF THE GEOBOTANICAL INSTITUTE ETH, 65 (1999)

Articles

- Brem, D. & Leuchtmann A. High prevalence of horizontal transmission of the fungal endophyte *Epichloë sylvatica*. 3–12.
- Bill, H.-Ch., Poschlod, P., Reich, M. & Plachter H. Experiments and observations on seed dispersal by running water in an Alpine floodplain. 13–28.
- Emig, W., Hauck, I. & Leins, P. Experimentelle Untersuchungen zur Samenausbreitung von *Eranthis hyemalis* (L.) Salisb. (Ranunculaceae). 29–41.
- Schaffner, R. Regeneration of vegetation on stabilising and eroding slopes in eastern Nepal: an evaluation 14 years after the first survey. 43–58.

Research projects and notes

- Hooftman, D.A.P., Diemer, M., Lienert, J. & Schmid, B. Does habitat fragmentation reduce the long-term survival of isolated populations of dominant plants? A field design. 59–72.
- Edwards, P.J., Kollmann, J., Tockner, K. & Ward, J.V. The role of island dynamics in the maintenance of biodiversity in an Alpine river system. 73–86.
- Lee, K., Fleischmann, K., Walther, G.-R., Kollmann, J. & Edwards, P.J. (1999) Excursion of the Geobotanical Institute ETH to the Seychelles 1998 – a travel report. 107–114.

4.3 FURTHER PUBLICATIONS

A Publications in refereed journals

- Abivardi, C., Weber, D.C. & Dorn, S. (1999) Effects of carbaryl and cyhexatin on survival and reproductive behaviour of *Cydia pomonella* (Lepidoptera: Tortricidae). *Annals of Applied Biology*, **134**, 143–151.
- Bloesch, U. (1999) Fire as a tool in the management of a savanna/dry forest reserve in Madagascar. *Applied Vegetation Science*, **2**, 117–124.
- Buyck, B. & Horak, E. (1999a) New taxa of pleurotoid Russulaceae. *Mycologia*, **91**, 532–537.
- Buyck, B. & Horak, E. (1999b) New species of *Russula* (Basidiomycotina) associated with *Anisoptera* (Dipterocarpaceae) in Papua New Guinea. *Australian Systematic Botany*, **12**, 727–742.
- Desjardin, D.E. & Horak, E. (1999) Agaricales from Indonesia. 1. A new cyphelloid genus (*Lecanocybe lateralis* gen. et spec. nov.) from Java and the Hawaiian Islands. *Sydowia*, **51**, 20–26.
- Dorn, S., Schumacher, P., Abivardi, C. & Meyhöfer, R. (1999) Global and regional pest insects and their antagonists in orchards: spatial dynamics. *Agriculture, Ecosystems & Environment*, **73**, 111–118.
- Edwards, P.J., Kollmann, J., Gurnell, A.M., Petts, G.E., Tockner, K. & Ward, J.V. (1999) A conceptual model of vegetation dynamics on gravel bars of a large Alpine river. *Wetlands Ecology and Management*, **7**, 141–153.
- Fallah, P.M., Shearer, C.A. & Leuchtmann, A. (1999) Freshwater ascomycetes: *Phaeosphaeria vilasensis* (Pleosporales), a new species from a lake in Wisconsin. *Nova Hedwigia*, **68**, 399–404.

- Gigon, A., (1999) Agricultural sustainability does not imply biocenotic sustainability. *Applied Vegetation Science*, **2**, 89–94.
