6. Calendar of Events – Calendrier des manifestations – Veranstaltungskalender	36

IABSE JOURNAL

Looking through the IABSE PERIODICA of the last years, it is obvious that the Journal did not appear regularly as part of this interesting quarterly publication. This might be due to the fact that most of our members do not know that also the Journal is open for individual papers like the Surveys and the Proceedings. The theme of such papers should be in relation with the tasks of WC IV "Construction Management" and WC V "Design Concepts" e.g. results of research studies or practical experiences and case studies in the field of design methods and processes, management, construction works and supervision.

To assure a periodical publication of the Journal we like to ask the National Groups and the individual members of IABSE to prepare their contributions for the next issues of the Journal and to submit the manuscripts to the IABSE secretariat in Zurich for review by the Editorial Committee. We hope that this appeal will have a positive echo among the members of IABSE and will stimulate them to contribute to an interesting and professional Journal.

Dr. H. R. Schalcher
Technical Adviser WC V
