The 480 participants of the Symposium in Luxembourg, 9 - 11 September, 1985, enjoyed the technical programme - prepared by Mr. J. Brozzetti and his Scientific Committee - and they also enjoyed, together with the accompanying persons, the social programme. For the many participants who went for the first time to Luxembourg, it has been a pleasant experience and discovery of a friendly country and friendly people. For the others, it was a confirmation!

We enjoyed working together with the European Convention for Constructional Steelwork on this first occasion, as well as with the Organizing Committee. Many thanks to all the volunteers who made this event a success and especially to Mr. B. Neis, Secretary of the Organizing Committee, Luxembourg.
