Liebe Leser Dear Readers

Vorerst ein paar Worte in einer der offiziellen Landessprachen der Schweiz, und dies zeigt gleich ein Problem: wenn wir hier fair sein wuerden und allen vier Landessprachen den gleichen Platz einraeumten, dann wuerden uns die zur Verfuegung stehenden Lokalseiten keinesweg ausreichen! Wir moechten lieber den Platz verwenden um alle die interessanten Informationen an die Leser weiterzugeben.

Ausserdem sollen auch Leser zweiter Generation Schweizer an der Lektue teilhaben koennen und auch fuer unseren lokalen Drucker wird die Arbeit leichter sein, wenn wir die meisten Artikel in Englisch veroeffentlichen werden. Wir sind sicher dass Sie dafuer Verstaendnis haben werden. Wir moechten aber speziell festhalten, dass Korrespondenz in jeder der Sprachen an uns gerichtet werden kann.

During last years Congress of the Neue Helvetische Gesellschaft in Einsiedeln "Information of the Swiss Abroad" and the Swiss Review in particular were discussed. Many useful suggestions were made, one of them was that at least once a year, each Swiss Association and its activity, should be brought to the attention of the Readers of the Review. As you might know the Review is distributed to all Swiss registered at the Consulate. It is therefore an important communication media, and should be used to the fullest by the various Associations to keep in touch with the compatriots in their area.

The build up of our "LOCAL NEWS" is such that during the whole year, and this means, in four quarter yearly issues, enough space will be available to publish material sent to the Editor.

The name of the "Contact", Person or Association is also given for each centre and they will be only too pleased to let you have further details on specific events near you.

The newly created column of "Readers Letters" will enable every reader to make his or hers personal contribution.

Lets see the real spirit of Swiss Solidarity and make the "Southern Africa Local News" a Showpiece of the Swiss Review worldwide and so even give Bern a pleasant surprise!!

For the first time an opportunity is given to businesses to advertise their services to many thousands of readers at a very reasonable rate. We ask you also here for your support. Send us details of your entries now! We hope that this guide will be expanded with each issue of the Review.

We thank you for your support and co-operation.

We are looking forward to some interesting stories coming to us, from the Land of Mealies and Diamonds.

Recently passed away - Heinrich Georg Freitag at the age of over 93. Mr. Freitag was Chairman of our Club for many years in the 1920/30's. We express our condolences to the family.

Yes Alpina was at one time one of the most active Swiss Clubs in South Africa. In fact founded in 1898, it certainly had during the time of Sir Arnold Theiler at Onderstepoort some highlights which linger on even today in the memories of many! The social spirit of that time is still there and any function organised by Alpina is a happy gathering.

We therefore invite all Swiss in our area to contact us. A look at the coming events shows:

Mitte März	Wochenendausflug mit Lagerfeuer Ziel wird noch bekanntgegeben
Mai	Dinner Dance
28. Juli	1. Augustfeier, mit Schwingfest im Fountains Valley

Two centres where Swiss have been present for a long time even if not in great numbers. P.E. of course had through the generosity of Mr. Portman even its own Club venue, at his House in Kamma road, where many a Jass was played and 1. of Aug. celebrated, and it is the wish this year that again our National Day might be celebrated, with a get-together, therefore contact Peter Luescher - he will be pleased to hear from you and also try to organise any other functions. The same wish has also been expressed by the East London-Swiss, and also here the appeal is to get in touch with your contact man.

By the way did you know that the founder and first curator of the famous East London Aquarium was a Swiss? It was Dr. Nanni, and the year 1931.

LESOTHO

Daniel Strassburger Innkeeper - Holiday Inn Maseru - Phone (0501) 22434

With a Swiss as Innkeeper it is not wonder that in May 1978 a real 'Swiss week' with Swiss Gastronomy and Folklore, Yodel, Alphorn Fahnenschwingen (imported from Johannesburg) was held in Maseru. Some of our compatriots, came as far as from Roma (still in Lesotho) to enjoy the Swiss week.

Lesotho a country with lots of mountains and real snow in winter is the favourite holiday place for many of the younger immigrants, and they and any Swiss visitor to Lesotho are always welcome to get in touch with the above address.

SWAZILAND

Juerg Leuzinger or Marc Aebi c/o Holiday Inns Mababane (0194) 61101

In one of the true traditions of Switzerland most our compatriots in this beautiful country work in the Hotelery business. And they also receive regularly the issues of this edition of the Swiss Review. We are sure they have many an interesting tale to tell about their activities there and we are looking forward to receiving some news from time to time.

RHODESIA

SWISS CLUB SALISBURY

Arnott Road, Cranborne, Box 3761,
Salisbury Phone (01910) 84461

Saturday, 27th January, saw our now traditional Maskenball (Fancy Dress Ball), well attended as usual and with a growing number of quite attractive and original "Masken". There were a number of worthy, if not wealthy, Oriental gentlemen, and a few rather noisy types from the Rhygass or thereabouts. Accompanied and spurred on by popular music generously provided by our "Capt'n Joe", the happening went on into the early (or rather "later") hours of the morning, only interrupted by a delicious "Chässchnitte" around midnight.

Our Annual General Meeting was held on Saturday, 24th February. The Easter holidays will again see some good food on our menu. The Clubhouse will remain open throughout the holidays, and a special evening programme will be arranged for Saturday night. Easter Sunday will be devoted to our children, with a big egg-painting do on the go.

The traditional **Swiss National Day** will be celebrated on **4th August**, with a pig on the spit, lampion parade, fireworks and a huge bonfire.

October and November will again be reserved for our annual Jass championship with very attractive prizes.

Father Christmas will arrive early in December, and we think of celebrating New Year's Eve together with as many compatriots as possible.

Visitors from other parts of Africa or elsewhere are always welcome and will certainly feel at home. Please contact us on arrival or whenever you feel lonely.

The Editor of this Review appeals especially to the **Swiss in and around Bulawayo** please let us have a contact address and the occasional contribution to this column.

This is your column, and your opportunity to take an active part. We are looking forward to the first letters to be sent to Swiss Review, Box 3364, Johannesburg, 2000. Please remember, your full **Name and Address** must be given but a "Nom de Plume" can be used for publication. The editor reserves the right of publication. STAG BULK . . . aggressive Swiss marketeer

Stag Bulk Equipment's local experience has actually put it ahead of its Swiss parent company in many fields of pneumatic conveying of powders and granular materials.

Their main activity is in the technical advice, design and sale of pneumatic conveying and storage installations of dry free flowable goods which can be transported through pipelines, using compressed air or vacuum as the prime mover.

Product distribution is by rail and road tankers and the contents of the vehicle are discharged pneumatically into storage silos for further use in the production process. This method eliminates the use of sacks and bags with their drawbacks of costs, theft, wastage, contamination and so on. Pneumatic conveying by compressed air or vacuum in pipelines is clean, efficient and effective.

From the start in this country, purely as a bulk cement transport company, Stag has come a long way and it is no overstatement that the company's initial successes encouraged other competitors to establish themselves. At present there is a whole industry based on the pneumatic handling technology in South Africa.

Stag's clients come from as broad a field as civil engineering contractors, cement and lime manufacturers, the mining industry, fertilizer producers, chemical industries, raw material processing industries and food and feed producers.

One of the company's advantages is that all equipment is designed and manufactured in South Africa and tailor made to suit local conditions.
