Having recently been appointed as the new Consul General of Switzerland in Manchester, it gives me great satisfaction to extend my warmest greetings to all compatriots residing in my jurisdiction. A special word of appreciation goes also to each and everyone who takes an interest or an active part in the life of the Swiss colony and who through either their professional activity or their appertainance to a Swiss Society contributes to keep alive and to foster the Swiss spirit which unites our compatriots abroad. I look forward to the pleasure of meeting you at the next opportunity, being at the Consulate General or socially, and feel confident that the good relations which have existed with my predecessors will continue and that my tour of duty in Manchester will prove to be most pleasant and rewarding.

**Farewell to Mr. and Mrs. W.
Renz**

After having made their home in England for 60 years Mr. & Mrs. William Renz have returned to our native land. They are now living in Niederteufen near St. Gallen. No doubt Mr. Renz will be thanked for his services to the Swiss Colony by someone better qualified than I am. I would like to say a few words about the woman behind the great man. Claire Renz has been a staunch friend at all all times, a faithful member of the Frauenverein since the late twenties and thus has lived through quite some changes in the Swiss Colony. She never seemed to change, nor age. She was always ready to lend a hand at the Bazaars, Christmas Teas or other functions of the Church and Colony. We all could benefit from her good common sense, her quick practical mind and loved her cheerfulness and friendly manner.

So it is with regret her friends in the Frauenverein say good-bye – though I would like to think it is not good-bye; rather au-revoir. Auf Wiedersehen in Niederteufen, where we wish Claire and Willi Renz many, many happy years in good health and contentment.

Bertie Kaluza

Swiss Rifle Association London

The Swiss Rifle Association of London meet regularly at the Rifle Ranges at Bisley Camp for their 300M practices. Shooting with both Karabine and Sturmgewehr on Swiss targets, members, including Lady Shooters, compete for the Club trophies as well as the St. Gallen, Zurich and Einzelwettschiessen medals. The military programme forms an important part of the season's activity and last year the Association achieved the distinction of being placed 1st in the rangliste for Schweizer – Schiessvereine im Ausland. Matches are held each year with a number of English Clubs, including the Surrey Rifle Association.

For the first time, a competition will be held in September, with a team from the Historical Breech Loaders Association. Competitors' skill will be tested by shooting Army Rifles dating from 1880, as well as the Assault Rifles of modern times! The Bisley meetings are also family occasions and the lunch time Barbecues at the Club House are well-known to the Shooting fraternity.

Through the good offices of EMD in Berne, pistols are now available and there is a growing interest in this type of shooting – not least by the Ladies!

The remaining rifle meeting dates are:

6th June
27th June
5th September
19th September
17th October

End of season meeting at Bisley 1981.

S.R.A. Team at the TIR Federal Luzern.

Pistol shooting is also held at Bisley and on 31st October and 12th December at the elite Marylebone Pistol Club in the City of London.

The Association concludes the Season, in appropriate style, with a Dinner Dance and Prizegiving. Maintained only by the enthusiasm and support of their members, new faces from home are always welcome and applications to join

A monthly "get together"

It was at the vet, her English gave it away. I knew at once that she was from Basel. Or there was the time I chased a car with CH plates back to its home; it was a fruitless deed I might add.

We meet the first Friday in every month, over a cup of coffee and delicious home-made Swiss cakes. Our aim is simple, to have a good natter at grass-root level. Newcomers to this country might find solace by talking to fellow Swiss. It has remained a "ladies only" affair. Due to the sheer number it would be impracticable to admit men as we meet in each other's homes. Some have drifted away, some moved on, new ones come. Our monthly gathering is our oyster. There was the time when two ladies realised that their brothers once played football together in the village they both happened to live in some time ago.

I was introduced to Annemarie Locher about 20 years ago when stationed here as an air hostess. We met up again when I married an Englishman and settled here. Her ex Swiss au pair had by then married and was living locally. We got together. In time each one of us found several other 'victims', and from there it snowballed.

If you happen to be in the Twickenham/Hampton area on the

above mentioned Fridays, and you see a convoy of cars with tell tale CH signs on them, and your nose detects that nostalgic whiff of Swiss-baking, do not hesitate, 'knock on wood', we will welcome you with cake.

Swiss Club Bournemouth and Environs.

Member of the Federation of Swiss Societies in the United Kingdom Since the foundation of our Swiss Club in March 1979, we have had a very active 3 years of Meetings; like Garden Parties, Barbeque, Film Shows, Walks in the Country and Fondue Parties at Home.

The highlights of the last few months have been the Mayor's Reception, and a Tea Party in the Mayor's Parlour, where we all pledged to assist and support the venture of the twinning with the town of Luzern, which is my home town.

The Mayor of Luzern and the Luzern Twinning Committee are coming over to Bournemouth to coordinate the Twinning arrangements and meet the members of the Bournemouth Swiss Club at a Social evening. In return the Bournemouth Committee is invited to Luzern later. The aims of the twinning are to promote friendship, broaden the mutual understanding of cultural, recreational, educational and commercial activities.

Farewell to an Old Friend

Many readers will be deeply grieved to learn of the death of Prof. Jean Ph. Inebnit, aged 91, at his home in Leeds on the 6th of March. His was a remarkable life, devoted to the service of his two countries, Switzerland and Great Britain and to the wider international community, for Mr. Inebnit considered himself a world citizen above everything else. Indeed, the United Nations has lost a real friend.

You may remember Mr. Inebnit as the co-founder and president of the Yorkshire Swiss Club, as the traditional "Landamann" of the "Landsgemeinde of the Swiss in the North" or as a highly committed member of the New Helvetic Society, who triggered off a wide range of concerns and actions. Or you may recall his pioneering work through international voluntary service, teaming up with that great countryman Pierre Ceresole. Since his arrival in the United Kingdom Mr. Inebnit maintained his base in Leeds, more especially at Leeds University, where students found him to be an outstanding and inspiring senior lecturer in the French department. Only ten months ago the university bestowed on him an honorary degree and planted a "tree of heaven" to commemorate his efforts for peace.

Right to the end of his life Mr. Inebnit pursued his latest goal: to assure the children of Swiss mothers married to non-Swiss the right to Swiss nationality, preferably through a change of the law or otherwise through the necessary constitutional amendments. It gave him great joy to see this issue being taken in hand by authorities in Berne. Young and old will greatly miss Jean Inebnit, as will members of his family who were his closest collaborators, Colette and Badi Lenz-Inebnit and Andrée Hastings-Inebnit and his grandson Luke Hastings.

Jean Tinguely

From 8 September to 14 November 1982 the Tate, with financial assistance from the Pro-Helvetia Foundation, will hold a major exhibition of the work of the Swiss kinetic sculptor Jean Tinguely. It will be the first time this artist has been shown here in depth, though there have been several important exhibitions of his work on the Continent and in America. Tinguely, born in 1925, went to Paris in the early 'fifties where he started to make a series of abstract wall reliefs in painted metal and wood whose shapes move with the aid of an electric motor. In the late 'fifties his sculptures became larger, free-standing and were built of scrap metal, rusty wheels and other junk or found objects.
