Fly over Switzerland

with us!

Let the air carry you away – see Switzerland from a new and higher perspective. Breathtaking scenery, wonders of urban architecture and remote spots filmed from a helicopter, sometimes from a distance, sometimes from right up close surrounded by people. Swiss View: a feast for the senses!

The film and television producer Marco Fumasoli shows us Switzerland in all its glory: his special vibration-proof camera, mounted on a helicopter, shows the Swiss landscape in a new light.

It's easy to find your way around! Every Swiss View cassette comes with a useful map showing the route followed during the flight.
