Watches. Cheese. Banks. Did we leave anything out?

Despite the clichés, typical Swiss values such as reliability, quality, discretion and innovation are as highly respected as ever – especially outside Switzerland and in our business as language service providers. You can expect our translations to establish a rapport with the reader so your message comes across well and has the desired effect. But regardless of whether you need a financial, advertising, legal or pharmaceutical translation, remember that there is one cliché that no longer applies: high prices.

No matter who your message is for, CLS Communication AG will help you communicate it successfully.

Worldwide health insurance cover - with a free choice of doctor and hospital

Since the Swiss Health Insurance Law was introduced in 1996, Swiss insurance companies have no longer been allowed to cover people resident abroad. To fill this gap, many Swiss health insurers have offered foreign coverage to Swiss living abroad limited to a maximum of 2, 3 or 6 years. Once the term is up, however, the insurance cover ends too.

Finding Swiss-standard coverage abroad is often very difficult. In addition, your age or medical history may present further hurdles.

Now IHI and ASN, together with INTRAS and Sanitas, have developed a solution for you:

If you have supplementary insurance with INTRAS and Sanitas, you can now change to **International Swiss Medical**, an international health plan from IHI (International Health Insurance danmark a/s). You can take out a plan up to age 79, and **without any medical examination**.

International Swiss Medical offers even more attractive features:

- worldwide cover with complete freedom of choice concerning specialists, hospitals and clinics, etc.,
- full cover regardless of your job, leisure interests or sports activities,
- guaranteed renewal of the policy for life - regardless of your age and state of health.

Interested?

Please contact us at ASN AG.
