IV. FINANCIAL POSITION

Introduction

Two events had a considerable impact on the ICRC's financial position in 1971 :

- (a) The message which the Swiss Federal Council addressed to the Federal Assembly, on 8 September 1971, regarding the Confederation's contributions to the International Committee of the Red Cross ;
- (b) Payment by the Government of the United States of America of an extraordinary contribution of 1 million dollars, on 29 June 1971.

It seems worth while to make a closer study of the meaning of those events.

In its message, the Swiss Federal Council set forth the reasons why the ICRC maintained delegations in different parts of the world. It also pointed out that open conflicts had compelled the ICRC to embark on various large-scale operations over the past few years. Pursuant to the mandate from the XXIst International Conference of the Red Cross, held in Istanbul in 1969, the ICRC finally applied itself to drawing up rules designed to supplement existing humanitarian law.

These circumstances resulted in an appreciable increase in ICRC activities and in a corresponding increase in expenditure, to which the Swiss Confederation had already contributed subsidies far beyond its usual annual contribution.

The development of its activities caused the ICRC to review its financial structure in order to ensure stability in the financing of its permanent structure and the requisite flexibility as regards the additional resources the use of which was contingent on the evolution of conflicts. The new system of financing was explained in a table attached to the message and reproduced as Table I to this Report.

With the prospect of this system of financing before it, the Federal Council proposed to both Chambers that the Swiss Confederation's

regular annual contribution towards the financing of the ICRC's permanent structure should be raised from 2.5 to 7.5 million francs and that the ICRC be granted supplementary contributions of up to 5 million francs a year to finance its temporary structure, i.e. to cover any expenditure incurred by the temporary recruitment of additional staff for special activities. It was further proposed that the 10 million franc advance made in 1968 and soon exhausted should be converted into a grant. In its conclusions, the Federal Council pointed out that the various proposals were designed to regularize a situation which had arisen as a result of circumstances rather than to increase the financial support which the Swiss Confederation had actually been giving the ICRC for a number of years.

The Federal Council's proposals were adopted by the Council of States in December 1971, and by the National Council in March 1972. As the new system was to come into force in 1972, the Swiss Confederation made an extraordinary contribution of 4.1 million francs to the ICRC at the end of 1971 to enable it to bridge the gap.

The new arrangements regarding financial support from the Swiss Government and the new system of ICRC finance administration (see Table I), which will for the first time affect the accounts in 1972, will undoubtedly make for greater stability in the financing of the ICRC's permanent structure and for the much needed flexibility in recruiting supplementary staff, on a temporary basis, for its delegations. The fact remains, however, that the ICRC will still need a substantial increase in the yearly contributions of other Governments to ensure the coverage of its permanent structure. It hopes to see those contributions rise over the next three years from 2.2 million Swiss francs—the present total—to 7.5 million. This would enable it to cope with the inevitable increase in standing charges, owing to rising costs, and to restore the necessary equilibrium between the support given by the country of origin and that given by other signatories to the Geneva Conventions.

With a view to a better equilibrium among the contributions from the different countries, negotiations were started between the ICRC and the Government of the United States of America, to obtain greater financial support for the ICRC's permanent structure from that government. Wishing to continue the considerable aid it had been rendering for large-scale operations in previous years, at the end of June 1971

the US Government granted the ICRC a special 1 million dollar contribution for its overall activities throughout the world.

Out of the approximately 4 million Swiss franc equivalent, 1.5 million francs was allocated to expenditure in 1971, and it was proposed to allocate a similar amount to the financing of expenditure relating to the permanent structure in 1972.

Analysis of Balance Sheet and Expenditure and Income Account

BALANCE SHEET

The analysis of the balance sheet (see Table II) calls for no special comment except on the following points :

- Once the Swiss Confederation's new system of contributions to the ICRC comes into effect, the items shown under assets for " Cost of relief operations covered by special advances " will no longer appear in future balance sheets ; nor will the item " Advances from Swiss Government ", which is included as a contra-entry under " Other Debts " on the liabilities side.
- The item " General Reserve ", which, in 1970, on the liabilities side showed a sum of Fr. 5,644,000, was split into :

General reserve	Fr. 644,000
Special reserve	Fr. 5,000,000

The latter reserve, which stems from the balance of the extraordinary contribution of Fr. 8 million which the Swiss Government made to the ICRC early in 1970, was used in 1971 to complete the financing of the permanent structure.

On the other hand, the " Special reserve " received the following appropriations :

- the unused portion of the extraordinary contribution from the Government of the United States of America, i.e. 2.5 million Swiss francs ;
- Fr. 410,461.04 charged against the 1971 Expenditure and Income Account, hence the new balance of Fr. 2,910,461.04 on 31 December 1971.

EXPENDITURE AND INCOME ACCOUNT (ANNUAL BUDGET)

Thanks to the extraordinary donations received from the Swiss and US Governments, the ICRC was able to close its 1971 accounts without a deficit, after the requisite extraordinary amortization of the item "Fixed Assets", and it even succeeded in setting up the necessary reserves to ensure financing in 1972 (see Table III). One should not overlook the fact that its regular financing is insufficient to cover the cost of its permanent structure and that it must seek a further substantial increase in its regular income to meet the cost of that structure in 1973, even though it is not proposed to increase the permanent staff.

As in 1970, the Expenditure and Income account includes expenditure and income in regard to the permanent and temporary structures. The latter will be dealt with in a different manner from 1972 onwards.

Table IV gives details of the contributions received from Governments and National Red Cross Societies (ex annual budget).

SPECIAL FUND FOR RELIEF ACTIONS

Table V contains a summary of the movement of this Fund, which, it will be recalled, is essentially maintained out of the Swiss public collection and other donations to relief operations.

The expenditure was entirely for medical and material relief provided by ICRC delegates in the course of their regular activities.

EXPENDITURE ON OCCASIONAL OPERATIONS

Table VI shows the expenditure still incurred in connection with the settlement of the former operations in Nigeria and Jordan, as well as the initial expenditure arising out of the conflict between India and Pakistan, which as from 1 December 1971 comes into the purview of the occasional structure, owing to the extent of the operation.

Other funds administered by the ICRC

As in previous years, the last table (VII) shows the balance sheets and the Receipts and Expenditure accounts of funds administered by the ICRC and which, under their respective statutes, are available to the ICRC.

Auditors' Report

The accounts have been audited by the *Société fiduciaire romande OFOR S.A.*, a member of the *Chambre suisse des Sociétés fiduciaires et des Experts-comptables*, and which on 25 February 1972 issued the report given on page 119.
