A Swiss woman who has become widowed or divorced after December 31st, 1951, has the opportunity to enrol in the said insurance. Such a person would have to declare her adherence within one year from the date of her husband's death or from the date of the divorce. For a woman who became widowed or divorced between December 31st, 1951, and January 1st, 1954, the term for adhering to the said insurance extends to December 31st, 1954. (Sec. 9.)

A woman who has been insured while still single may continue her membership provided that she signs a new declaration within one year after her marriage. (Sec. 10.)

A Swiss citizen of either sex may declare his or her adherence to the insurance at any time prior to attaining the age of 31 years. (Sec. 7.)

Any Swiss national or "Dual" national interested in this matter may obtain further information by contacting the CONSULATE OF SWITZERLAND, P.O. Box 386, WELLINGTON, C.1.

NOTICE CONCERNING SWISS CALENDARS FOR 1955

To enable our compatriots to procure a pictorial calendar from Switzerland for 1955, the Consulate is prepared to pass a collective order. Applicants are asked to write to the Swiss Consulate, P.O. Box 386, Wellington, C.1, and to remit at the same time the amount in question. The following calendars are offered:—

- (a) THE ALPINE CALENDAR, 1955 (Stehli), price 10/-. Size 11½ in. x 11 in., with twelve monthly sheets, each showing a beautiful Swiss scene in natural colour lithography. This calendar is also published in German under the title "Berge und Taler der Schweiz."
- (b) SWITZERLAND, 1955 (Novos), price 10/-. This calendar can also be had in German, "Die Schweiz." It contains 125 sheets of photographic views.

Orders for these calendars will be received until September 10th.

For a certain reason the orders have to be limited to one or two calendars.

CORRESPONDENCE: Please address to the Secretary,

MR. E. MERZ,

Prefabricated Buildings

Very interesting experiments have been carried out in Switzerland during the last few years in the field of the construction of prefabricated houses. One of the very first experiments of this kind was the putting up of a large group of buildings in Geneva, in 1948-49. This group, which was entirely prefabricated, was followed by other constructions of this kind, namely, at Pully, Lausanne and the Chaux-de-Fonds. It was visited by a large number of foreign official bodies and, quite recently, the Minister of Reconstruction in Great Britain had a dossier prepared on this subject.

New Motor-car Lights

An interesting demonstration took place recently in the Canton of Neuchatel, in Switzerland, by the authorities who control road traffic, with a view to proving the efficacy of a new type of "dimmer" for motor-cars, which has been perfected by a technician in Bienne. This is a head lamp provided with shutters which are inclined to a degree and which deviate the rays of light to the right of the road. The left part of this device is formed of vertical screens which prevent any dazzle. The lighting on the right side is all the stronger for this, and makes it easier to see any obstacles in the way, such as pedestrians, cyclists, etc.

NOTICE TO INTENDING TRAVELLERS

Due to the difficulties experienced in the past by Swiss nationals who have travelled away from New Zealand, and who subsequently have wished to return, it is thought desirable to draw the attention of all intending travellers to the fact that before leaving New Zealand they should make application to a Collector of Customs for a Certificate of Registration authorising their readmission to New Zealand. The procedure is for the travellers to produce their passport with two photographs of passport size and complete a written application. The period of validity of the certificate granted is shown on the face of the certificate, and the holder is permitted to return to New Zealand provided that on arrival back at a New Zealand port they establish their identity and the certificate is still valid.

We are now in full swing with our production of First Class Continental Sausages, of which we produce some fifteen different kinds.
