News from Switzerland

THE NOBLE ART OF STEEL ENGRAVING

The philatelic department of the general management of the Swiss General Post Office (PTT) in Berne (Parkstrasse 10) has just placed on sale a booklet edited by Mr Hans E. Gaudard, head of the Postage Stamps and Printing Division of the General management of the Swiss General Post Office, and entitled "The noble art of engraving;" its 44 pages contain 398 reproductions of a selection of studies, projects and designs chosen for four current issues of Swiss postage stamps. This booklet will be of great interest not only to philatelists but to all those concerned in one way or another with the art of engraving on steel. (OSEC).

PRODUCTION OF PROCESSED CHEESE IN CARTONS

In 1964, Swiss Firms manufacturing processed cheese in cartons produced a total of 22,893,957 lb of processed cheese, 36.6% of which was consumed on the home market and 63.4% dispatched abroad. Home consumption as well as exports have therefore increased. Exports covered 93 markets, the biggest buyer being Italy with 3.9 million lb. followed closely by the United States of America with 3.7 million lb.
