HEDY'S CORNER:

Nüsslisalat. This wonderful little plant, with a name that sounds tasty, the "nutty lettuce", and a botanical name which rings like something out of one of Verdi's operas, "Valerianella Olitoria" (how is that?), should soon be ready to be included in our Swiss winter dishes.

The plant is easy to grow once you have it established in your garden. Several times I have introduced seeds from Switzerland and have had some real good success both in the North and South Island. My Maori wife and my children soon appreciated the taste of this refreshing medium for a good salad when lettuce is not available.

This year I have some "Nüssler" in my garden. I had gathered the seed from some plants I found growing in a garden of a lady who has it growing in her flower beds! I spread the seed in mid-summer and now have substantial supplies of this most welcome "nutty lettuce".
