Truffels schliats, ni cun bia aua e loms, san ins megliar in bien ton, sch'ins pren els giud il fiug sco ch'els ein cotgs, derscha naven l'aua, e tschenta els puspei sura fiug senza aua, exponend els aschia ad ina calira schetga. — Ei gida era, de rasar els avon che cuer sper la pegna ni platta caulda. Cheutras evaporescha bia aua, ils truffels vegnan pli de frina e gustus. Il medem selai era contonscher immediat avon che cuer, cun tagliar giu en in rudi ina graschla penda della pelletscha.

Nuschs veglias survegnan puspei lur gust, sch'ins metta ellas en in vaschi e derscha lu surengiu aua bugliada fetg salada, e lai sferdar aschia. Ils cocs ein suenter sco quels de nuschs resch frestgas ed han era il medem gust.

Il clar d'iev vegn sbattius spert en spema, sch'ins metta il pez d'in cunti sal vitier. Pli frestgs ch'ils ovs ein e pli spert ch'ins ha sbattiu els.

Per scatschar pelischs dat ei in oreifer remiedi: il thymian selvadi de nos praus. Quella plonta sechentada, che freda sco citronas, vegn sternida giun plaun ed els cantuns e lu vegn la stanza serrada dapertut. En 48 uras ein ils pelischs tuts svani.

Scatschar las miurs: Camella selvadia vegn sternida sut las scaffas e pil local entuorn; il fried de camella ei insurportabels per quels tiers, aschia ch'els fuian ualti spert. Ni ch'ins sa era far ina mischeida cun arschella, caltschina bletscha e glas mulau fin e stuppar quella buglia en tuttas sfendaglias e ruosnas, che vegnan aschia emplenidas e serradas per las miurs.

Lavar butteglias de d'aua: Taglia in pign truffel criu fetg manedel e metta quei cun pauc aua en la butteglia e zacuda lu entuorn quei ditg e bein. Lu vesas ti en buca ditg il bien success e suenter haver derschentau ora cun aua schubra, has ti in glas clar sco cristagl.

Per far ir la carn selvadia ei bien metter si zucher alv.

Per fortificar la gnarva (per ex. d'affons che vegnan buca d'ir sez), ei bien de metter in ruog vinars en in furmicler d'uaul, schar star in di ed ina notg e schar ir en las furmiclas. Quei vinars, de schar trer el sulegl, dat lu suenter speciala forza alla gnarva.

In um devozius spir sentiment: In um mava mintga di alla moschea per tedlar ils priedis ch' in perdert predicatur fageva leu. Duront mintga priedi bargeva el, ch'ei havess lumiau la crappa. Cheu han inagada ils auters dumandau el: „Ils priedis de quei doctur fan ensumma negina impressium sin nus; pertgei bragias ti adina?“ Sin quei rispunda el: „Buc ils plaids dil doctur ein la raschun per mias larmas, na, tuttavia buca; mo jeu hai giu in buc de cauras, che jeu tenevel car. Mintga gada che jeu vesel ussa a perdegond il doctur ella moschea, e vesel co sia barba penderlescha vi e neu, stoi jeu patertgar vid miu buc carpau, che haveva era ina aschi liunga e biala barba.“

In giuven american: che haveva sfarlatau vi ina considerabla rauba cun beiber e magliar, tener gasterias etc., entaupa sin via il miedi de sia famiglia e di: „Signur Docter, mirien inagada giuaden mia gula, igl ei propi curios, vesan els nuot?“ „Jeu vesel nuot“, di il docter, suenter haver mirau en bucca al giuven. „Jeu roghel, mirien aunc inagada.“ Il docter tuorna a mirar, mo di puspei ch'el vesi nuot. „Nuot, sig. docter, quei ei veramein curios, da quella gula giuaden hai jeu tarmess la possessiun de miu bab, 20 000 dollars e 30 neghers! Ed Els vesan nuot?!“ (Ord „il Glogn“ 1867)

Ina veglia historia: In bab che mava a spass cun siu affon, ei vegnius sper ina furtga ora. „Tgei petga ei quei“ damonda igl affon. „Vid quella pendan ins ils paupers pucconts, entochen ch'els ein morts“, rispunda il bab. „Ils paupers?“, damonda surstaus igl affon. „E nua vegnan ils beinstonts pendi?“ — Il bab ha buca saviu rispunder sin quella damonda nunsavend ch'ins laschi cuorer libramein ils pucconts e laders beinsituai. Laders pigns pendan ins, ils gronds lai ins ir.

Tier ina fiasta a Berlin dal temps de Fridric IV, nua che tuts quels che havevan ina medaglia ni decoraziun d'honor, fuvan envidai, ha in vegl general, che tarlichava dallas steilas e decoraziuns sin siu pèz, dumandau in superindendent evangelic, cont Ross, natural per spass: „Sche vus stuesses ussa cun quella caschun perdegar, anflasses lu bein era cun inagada in text adattau ord la sontga scartira?“ — Superintendent Ross rispunda senza patertgar ditg: „O, gliez fuss buca grev! Catschadurs della bial'aura: „La lieur seseva ual sper tei, pertgei has buca sittau?“ — „Gie, ti has bi dir: la buis ei stada memia liunga!“

Luschezia avon la curdada: Duront sia dimora a Moscau, ina capitala della Russia, ha Napoleon schau batter muneidas memorativas cun siu maletg. Sin il revers steva sequenta inscripziun, che tuna sco ina blasfemia encunter Diu:

„Il tschiel ei tes,  
Il mund ei mes.“

Enzacontas de quellas muneidas ha el tarmess al stathalter de Orenburg cun ina scartira per contractar. Igl um vegl, mo energic (Suvarov) ha sgarflau sut il maletg de Napoleon sin la muneida, cun ina savetscha ils sequents plaids:

„Il dies ei tes,  
Il fest ei mes.“

Quei ha el lu tarmess sco risposta a Napoleon. Co il maun dil Tutpussent ha tuccau quel, raquenta la historia universala a tut ils tschentanners. Ils camps glacials della Russia, ils nums Leipzig e Waterloo vegnan mai a vegnir emblidai.

Ina gasteria: „Gia gentau?“, damonda gerau B. il president C. „Gie, grad ussa, stupent, ella cruna, dus delicats purschals.“ „Mosch, cons ein ei stai de gentar?“ „Jeu ed ils dus purschals“, rispunda il president.

Sfarlatar. Il retg Ludvig XVI della Frontscha fageva ina sera in giug de cartas cun in fetg beinstont duca. Duront il giug ei ina muneida dil retg curdada giun plaun, aschia ch' il lacai che steva davos el saveva buca anflar quella muneida. Cheu ha il retg priu la cazzola, e teniu ella pli bas, per ch' il lacai anfli e lu mess la muneida sil plaz d' avon. Il duca che teneva quei per enzatgei pedantic, ha cun inagada furschau tut ils daners avon siu plaz giun plaun, e lu detg loschamein tier il lacai: „Encuri, quei auda a vus!“ Il retg Ludvig che ha cun inagada encurschiu quella beffa, plaida tut ruasseivels tier il duca: „Els ein in dils pli beinstonts proprietaris de quella tiara e san far cun els tgei ch' els vulan. Mo jeu sun igl administratur dellas taglias della Frontscha ed anflel perquei buc ina raschun, de better mes daners sut meisa, fertont che mellis de mes subdids vivan aunc en paupradad e miseria, e mias entradas tonschan per bia buca de gidar els.“

Venderdis sogn. Duront las festivtads de venderdis sogn ei succedi uol onn 1902 el casti imperial a Vienna in remarcabel accident. Il Sontgissim fuva ual vegnius exponius ed ins entscheveva cun la solemnitad de satrar. Igl imperatur fuva semess en schenuglias. Mo cheu encorscha el, che la suite davos siu dies stat per la gronda part sin peis e demuossa buca la reverenzia duida al Sontgissim exponiu. Senza sesalzar sevolva il monarc anavos tier sia suite ed envida en quella cun ina gesta fetg bein capeivla, de star en schanuglias. Quei ha gidau. En in hui stevan ils signurs schon en schenuglias.

Scuidonza. Avon igl imperatur Jesef II passa inaga in officier e roga per in susteniment, perquei che sia dunna e ses affons seigien malsaus. „Gie, jeu hai mo 25 ducatas en sac“, di igl imperatur, „sch' igl ei avunda, sche quellas saveis vus haver.“ — „Quei ei memia bia“, di il camerari, che ha compognau en sala igl officier, „cun 25 guldas fuss ei era avunda.“ — „Haveis vus ton en sac?“ damonda igl imperatur spert. Senza s'entardar trai il survetscheivel camerari sia buorsa ord sac e dat agl imperatur sias 25 guldas. Lez metta ellas tier sias 25 ducatas e di agl officier: „Engraziei a quei signur cheu, che ha buca vuliu schar a mi persuls il plascher de gidar vus“. Il camerari duei haver fatg ina curiosa fatscha, vesend sco sia scuidonza haveva scultriu el.
