Swiss Journal of Sociology

Purpose of the Journal

The aim of the *Swiss Journal of Sociology* is to serve as a forum for data and analysis relating to Switzerland and thus reflect research in the social sciences in that country. Notwithstanding that priority, the Journal is fully open to foreign authors, regardless of whether their work is connected with Switzerland.

The Journal neither favours nor excludes any research orientation. Articles are chosen for publication by the Editorial Committee, assisted by referees.

Notes for Contributors

1. Articles submitted for publication should not exceed 70.000 characters, footnotes and references included. They should be accompanied by an abstract of a dozen lines, i.e. approximatively 650 characters.
2. Four typed copies should be submitted. A disk indicating the type of word processing used should also be sent, *but only after acceptance* of the article and any necessary changes.
3. The first name and surname of the author as well as his or her institutional affiliation should appear on the first page under the title of the article. The author's address should be placed at the end of the article, following the bibliographical references. The abstract should be submitted on a separate page, again preceded by the title of the article and the author's name.
4. The bibliographical references in the body of the text should be made consistent with the following example: ... (Merton, 1968, 11-18).
5. The references, grouped alphabetically by author at the end of the article, should be made consistent with the following examples:

Books: Merton R.K. (1968), *Social Theory and Social Structure*, The Free Press, New York.

Articles from journals: Hollander E.P. (1971), Style, Structure and Setting in Organizational Leadership, *Administrative Science Quarterly*, 16 (1), 1-9.

Articles from collective works: Udy S. (1965), The Comparative Analysis of Organizations, in March J.H. Ed., *Handbook of Organizations*, Plenum Press, Chicago, 678-709.

6. Footnotes, numbered continuously, should only be used for brief comments and not for bibliographical references.
7. For numbering titles and subtitles, it is preferable to use decimal notation (1., 1.1, 1.1.1).
8. For tables, the columns should be separated by tabulators. For diagrams, the figures upon which they are based should be mentioned. The publishing house will provide instructions at a later date on how to submit more complex graphs, maps and other illustrations so that they can be reproduced.

Editorial Address

Contributions and books for review should be sent to the following address: Jacques Coenen-Huther, Editor of the Swiss Journal of Sociology, University of Geneva, Department of Sociology, CH-1211 Geneva 4.
