The Emperor of Ethiopia, Haile Selassie arrived on November 25th — coming from Denmark — at Basle for his three days State visit to the Swiss Confederation.

On descending from the special train, the Emperor and his suite were greeted by M. Petitpierre, Swiss Foreign Minister, Dr. Zschokke, President of the Basle Government, and a number of high rank officers. After having inspected a guard of honour, the Emperor and his suite departed for Hindelbank, where the distinguished personalities were to stay at the castle of Jegenstorf as guests of the Swiss Government.

When the special train arrived at the Hindelbank station, the Emperor was greeted by Monsieur Rubattel, President of the Swiss Confederation, who was accompanied by Federal-Councillor Escher, Federal Chancellor Oser, Colonel of Division von Muralt, and Mr. Gnägi, President of the Government of the canton of Berne.

Later in the afternoon, the Emperor made his entry into the capital, which was gaily beflagged. The carriages drawn by four horses, were occupied by the Emperor, the President of the Confederation, the Emperor's suite, and the Swiss Aide de camps who were heartily cheered by large crowds during the drive to the Palais Fédéral.

The official reception was held in one of the salons in the "Wandelhalle", where all the members of the Swiss Government were in attendance. The President in his address of welcome voiced the pleasure with which the entire Swiss population had been looking forward to his visit. The Emperor suitably replied.

In the evening a Banquet took place at the Bellevue Palace Hotel offered by the President of the Confederation to the Emperor and his suite, at which all the Federal-Councillors and high officials were present.

The next day various buildings, amongst them

the Town Hall and military establishments were seen. The official visit concluded by the Emperor visiting the towns of Zurich and Geneva.

Work is at present being carried out on the Simplon road, at Cully, half-way between Lausanne and Vevey, under the initiative of the government of the canton of Vaud. The new road will follow the railway track and pass over the line. The old road passes under the track and goes through the small town of Cully, a bottleneck that is the nightmare of motorists and pedestrians. In many places, on the main highway, the road is being widened and obstacles by-passed — between Geneva and Lausanne and between Sion and Brigue in particular.
