£70m. SWISS PLANT FOR EUROPORT

A Swiss aluminium manufacturing group based in Zurich plans to establish a 200-acre factory complex, involving an investment of about £70m., in the industrial area of Botlek between Rotterdam and Europort, opposite the Hook of Holland. The firm has taken an option on a further 100 acres, to provide for expansion in the next two or three years. Chemical and metallurgical works and an ore trans-shipment installation are to be built in the first stage of the project.

The Swiss firm intends to found a subsidiary company to operate the complex. With this project, the development of Botlek as an industrial area, one of Rotterdam's biggest achievements since the Second World War, will be almost complete.
