IT ALL STARTED IN ROME . . .

On the historical site of Baden near Zurich where the Romans already enjoyed the hot springs at the beginning of the Christian era, construction work has been started on a modern outdoor thermal swimming pool amidst lovely gardens. Architect Otto Glaus, an expert in this field since he was responsible for the famed pool in Bad Ragaz, is again concentrating on harmony of the buildings and the extensive gardens between the Verenhof Hotel and the banks of the Limmat river. The pool will be 79 feet long and 37 feet wide. The bathers will have an extensive view of the gardens and the existing pavilions. The pool will be open all year round with high glass walls to serve as protection against wind and weather and comfortable covered loggias for relaxation and rest. The modern establishment is to be inaugurated in the spring of 1964. [S.N.T.O.]

BIG INDUSTRIAL MERGER IN SWITZERLAND

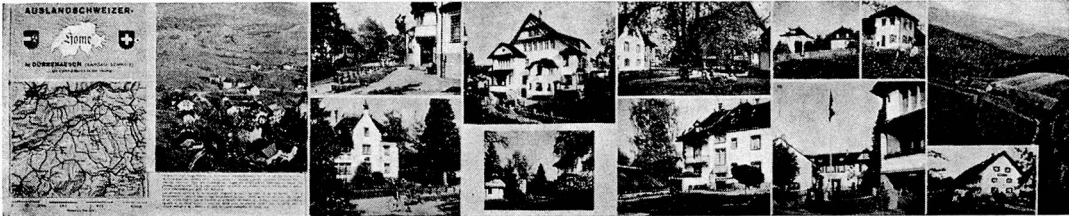

A recent general assembly approved the merger of two big Swiss industrial concerns in the light engineering branch. The two firms involved are Paillard Ltd., of Yverdon, well known as manufacturers of Hermes typewriters, Paillard miniature film projectors and Bolex miniature film cameras, and Thorens Ltd., of Sainte-Croix, manufacturers of musical boxes, cigarette lighters, record-players, etc. The association of the two firms is in keeping with the present trend towards industrial and commercial mergers designed to meet the increasingly keen competition. Counting the personnel of the affiliated or associated companies, the Paillard group today employs a total of some 5,700 persons in Switzerland and abroad. [O.S.E.C.]

wrong and get no punishment.
