Incidental extra: world's widest zoom

Incidental, because a zooming range of 12.5 mm is not so important as the quality on your screen. And it is in the unsurpassed image that the true satisfaction of the Bolex 18-5 projector lies. It takes a 12-element lens and has a highly sophisticated system of vertical and horizontal frame register.

The result is a crisp, steady picture. Price £69.10.0

Totally reliable automatic threading plus Paillard-Bolex 12.5 mm, f/1.3 zoom lens. It features an integral mirror/condenser lamp; switched room light socket and the Bolex high-precision claw and gate movement.

Bolex slow-motion shutter adjusts automatically on 5 frames per second to give 9 light interruptions per frame instead of the usual 3. Result: no flicker.
