100 YEARS of precision turned parts from MULLER

In 1976 Muller celebrated its centenary of manufacturing precision turned parts and small precision tools including solid carbide drills. With production facilities in Switzerland, England and France customers in all industrialised countries can be served quickly and reliably. Quality and precision has always been foremost and Muller's skilled production technicians meet the most vigorous requirements and specifications for all industrial applications.

The continuing growth of demand has resulted in expansion, modernisation and co-ordination of production facilities with a reputation for quality that is second to none.
