EDITORIAL

Members will see an advert in this journal from the Dampfbahn Furka Bergstrecke AG, which is doing valient work on the restoration of the line over the Furka via Gletch and Tiefenbach. The proposal is to open this rack rail line to traffic hauled by steam locomotives. A loco type HG2/3 "Weisshorn", built by SLM in 1902, has been donated by the city of CHUR for operation on the line from June 1989. Full details of the membership fee and the aspirations of the FB Society are available from the gentleman named in the advert.

There are several manufacturers of model railway equipment that are almost unheard of outside the German language press. Many of the items produced are low volume runs of "HO" and "N" scale models of rolling stock etc, that members might like to know about to help them achieve that extra degree of authenticity. I would like to stress the point that listing in the journal of any company is not an automatic endorsment of its products.

Would members please note that sometime in the next three months the telephone exchange in Newburgh will be changed and the editors phone number will become 0358 689769. No date can be given as BT has as yet not decided when to changeover.

Reminder: The S.N.C.F. Society is holding a European Model Railway exhibition in Derby on the 3rd September, details in last issue of S.E.
