CITY TRANSPORT - THE WAY FORWARD

Our cities are in crisis. The air is polluted. The roads are congested.

With the recession finally ending, the forecasts are that the traffic levels are set to rise.

Things can only get WORSE.

This video looks at *Positive Solutions* to the air pollution and traffic congestion that afflict most urban areas of the modern world. It includes sequences from Great Britain, Ireland, Australia, Canada, the USA, Asia and Europe. 'Swiss locations include Airolo, Basle, Biel/Bienne, Fluelen, Geneva, Lausanne, Lugano, Neuchatel, Schaffhausen, St. Gallen, Vevey-Montreux and Zurich! It promotes integrated multi-modal transport (rail - bus - boat) with easy interchange facilities and an equitable fares system that charges the same whether a journey of equal distance requires no changes or three. It covers a wide spectrum of transport including heavy rail, light rail, metros, automated guided transit, buses (electric, guided), monorails and the GLT. Other topics include on-street parking, city-wide zero emission zones, more rail freight and bus/rail deregulation and privatisation.
