## Trams

### Transports publics genevois

The extension of Line 13 from Cornavin to Place des Nations was inaugurated with the national timetable change on 13th December. As the additional trams on order won't be delivered until Summer 2004, the TPG have hired two 'Cityrunner' trams from Lodz (Poland). These five section trams of 2002 / 2003 are unusual for Switzerland in being double ended. A concession has been granted to convert trolleybus route 9 between Cornavin and Maisonneux to tram operation, with a planned completion date of 2009.

## Shipping

### VIER WALDSTÄTTERSEE

DIE FLOTTE MIT STIL

*Am alten & jungen*

The SGV became the second company in 2003 to run a substitute ship service after a landslide swept away the lakeside road near Vitznau at the end of November. Until the road reopened in February, a roughly two hourly service was provided between Vitznau and Gersau, calling on request at the piers at Flonalpina, Rotschluo and the Beckenreid ferry terminal.

PS Gallia is due to re-enter service on May 1st, with a parade featuring all five paddle steamers being planned.

PS Simplon has been out of service since suffering an explosion while leaving Geneva on 18th August 2003. Finance has been found for her reconstruction, with an expected return to service in 2005.

The former PS Valais, for the past 40 years a restaurant and landing stage at Geneva Jardin Anglais, has been broken up.
