## **WHY SWITZERLAND?**

First impressions run deep. Childhood memories of summer holidays with that first encounter with unknown trains at Basel Bundesbahnhof – overhead line, Leichtstahlwagen, Ae4/7s, guards with bags knocking their shins – with paddle steamers and with the discovery that there were so many different railways, yet each was so Swiss! Zweibach for breakfast; packed lunches with rolls and some chocolate; at dinner the soup brought in a separate individual tureen for each of us, to be poured into the bowls at the table and our own napkins in envelopes. And each outing always began with a train journey, or at least a boat or a chairlift ride!

No longer do ‘Crocodiles’ take freight on the Gotthard, the Ae6/6s have lost their names and the Firstbahn has cabins, but there is yet quality in all things – clean shops, reliable transport, full measures, thorough ski teaching – and that ‘certain sort of a something’ among the mountains and meadows, cities and ski slopes, which will always be Switzerland – and above all it is the Land of My Grandfather.

**Paul Russenberger – SRS Immediate Past Chairman**

*Part 4 of Paul Russenberger's "The Electric Railway." will be in the September magazine.*
