Conversion to a Company Limited by Guarantee

AS announced in *Swiss Express 123* the Management Committee has been looking into the feasibility and desirability of transforming the Society into a Company Limited by Guarantee.

Whilst the Society continues to enjoy a healthy trading and financial existence, the Management Committee is conscious that in the event of a failure of the Society, the liability of the committee and ultimately individual members, is currently unlimited. In these increasingly litigious times there is always the risk that such a failure could arise due to circumstances completely outside of the control of the Society.

In order to protect current and future members of the society, including the Management Committee, in the unlikely event of a failure it is proposed to formally incorporate the Society as a Company Limited by Guarantee. This will require each member to agree to be liable to contribute a maximum of £1 to the company's assets if it is wound up and is unable to pay its outstanding liabilities.

This method of protection is commonly used by many similar societies to the Swiss Railways Society. It requires formal registration with Companies House and places specific legal responsibilities on members of the Management Committee. Registration will also require a revision of the Society's Rules and Constitution as Articles of Association, to include provisions required by Companies House and add greater detail to the existing rules.

It must be emphasised however that the aims, objectives,

day to day operation and name of the Society will not change as a result of the proposed conversion.

The next significant step will be for the 2016 AGM to be asked to approve the motion that:- "***It is proposed that a Company Limited by Guarantee be formed in order to take over the function and assets of the Swiss Railways Society.***" Assuming that this is accepted then the Management Committee will draw up the documents necessary for the formal registration. It is expected that professional assistance will be required with this work.

The documents to be submitted to Companies House with the registration include the new Articles of Association as mentioned above. In order to gain the approval of the membership for these Articles of Association it is anticipated that an EGM will be held approximately 3 months after the 2016 AGM. This will then allow the incorporation to take place in time for the start of membership renewals for 2017. The membership renewal will include a formal acceptance of the £1 limited liability by each member in the new Company Limited by Guarantee. This will not require the payment of the £1 since that would only become payable if the company was wound up and was unable to pay its debts.

The actual change of status will then occur at the start of the Society's new financial year on the 1st January 2017.

Further updates will be reported in *Swiss Express*. Meanwhile questions or matters relating to the change should be sent to Restructuring@swissrailsoc.org.uk.
