La couleur pare

*habille souligne

Depuis les temps les plus reculés, les hommes savent qu'elle est la source d'un plaisir constant et que sans elle la vie perdrait un de ses plus grands charmes. La création des matières colorantes synthétiques a ouvert un monde enchanté dont les magiciens – les chimistes de nos laboratoires – s'efforcent sans relâche de mettre au point des produits nouveaux, de tons toujours plus purs, plus riches et plus solides. La palette de ces colorants, mise au service des créateurs de la mode, contribue merveilleusement à revêtir la femme des grâces les plus délicates. Les laboratoires de la Ciba peuvent se flatter de prendre une part très importante à cette recherche incessante et comptent une foule de beaux succès à leur actif.
