Tricots et jerseys.

New summer wear

Summer fashions demand suitable clothes and light fabrics, but must still — in spite of the desire for comfort — possess elegance, distinction and the personal touch given by a well-made, if simple, dress. Up till now, dresses made in fabrics reigned undisputed in this field ; but now we have the Fresca tricot dress, which opens up new and very attractive possibilities to women who see no reason to suffer from the heat or any inconvenience in summer, nor yet to forego their glamour.

Fresca is a fine cotton tricot with a special finish created specially for summer fashions. It is made in striped patterns or more particularly in prints, in a great variety of designs and colours. It possesses very appreciable practical advantages, for it is crease-resistant, light in weight, porous — but not transparent — it is washable, unshrinkable and its colours are also fast to the rays of the sun ; furthermore it does not felt, since it is made of cotton. The very attractive dresses made in this tricot, whether they be simple, fancy or of a more sober and classical elegance, are a joy to wear and guarantee the wearer a maximum of comfort and advantages combined with the greatest chic.

We show here three Fresca printed designs and three dresses from the Fresca collection.
