After the great success met with by nylon tricot shirts, it was obviously only a matter of time before the comfort and practical qualities of these articles should be extended to the field of nightwear too, especially for the use of those who have to travel a great deal but also of course for the benefit of everyone else. Among the first of these practical and popular new garments are the men's and women's easy-care pyjamas made in Nylsuisse tricot fabrics. These articles, whose quality is checked and guaranteed by the « Société de la Viscose Suisse » at Emmenbrücke, the makers of Nylsuisse, have all the qualities that made the shirts such a success. Pleasant to wear — thanks to their softness and porosity — and extremely hard-wearing, they can be washed in a moment and dried very quickly without creasing, so that ironing is completely superfluous. Nylsuisse pyjamas for men, with classical striped designs, in opaque tricot, never crease and always look perfectly neat and tidy, which is important when staying in hotels and makes it possible to do without a dressing gown. Which does not mean, of course, that a dressing gown is not a very useful and practical garment to have, especially when it is made of Nylsuisse tricot, which offers the same advantages as the shirts and pyjamas made of this material. Yet another advantage of all these Nylsuisse articles is their lightness and lack of bulk, making it possible to pack them in the smallest suitcase or even a man's brief-case, from which they can be unpacked perfectly neat and ready to wear, no matter how small the space into which they have been squeezed.
